

GOLD MEDALLIST

RE-INFUSES MEANING TO STANDARD REFERENCES ...

Classicism becomes a compelling force and provides an opportunity to innovate. Because it is bold, majestic and charismatic... classicism is ideally up-to-date. It offers benchmarks for building, recomposing, and boldly reviving self-confidence and true elegance, those that are based on know-how, knowledge, and experience. A focus on classics with a radically contemporary and modern translation, allowing for offbeat and eccentric variations.

Hunting, horse riding, college and British traditions inspire our search for new key standards.

WORLD REMIX

WORLD REMIX RELATES TO CURRENT ATTITUDES TOWARDS NOMADODOLOGY AND MIXING: IT IS A RICH AND MODERN STORY OF HUMAN TRANSMISSION AND ENDURANCE.

Between yesterday's pioneer and today's migrant, population movements and cultural interactions have never ceased to intensify and accelerate. Globalization has helped us realize the tremendous diversity and riches of this "world culture" that merges with notions of a positive and sustainable future. Like a long human saga of transmission, wanderlust and endurance, "Nomadology" and "Hybrid-age" are re-infused with meaning and essence.

In World Remix, we integrate all world cultures and rediscover the pioneer workwear for sustainable functionality.

FAR-OFF LANDS

FAR-OFF LANDS CREATES AN ESSENTIAL IMAGINARY PARENTHESIS: A STRANGE WORLD OF CHIMERICAL SOFTNESS AND GALACTIC SURGES, WHERE WE ARE SUSPENDED BETWEEN THE YEAR 1000 AND AN UNCERTAIN FUTURE.

Once upon a time, living the natural life of frugal simplicity and unassuming beauty ... a return to the source of neo-Shaker or Pre-Raphaelite neo-romanticism, of a symbiosis with flora and fauna. This enchanted "green" dream of softness and freshness inspires urbanites tired of the Fast track and Junk life. We want to infuse, in our lives, some utopia, ecological adventure and rethink our relationship to nature in an exploding, muffled, timeless world, a precursor of things to come. This is the prelude to a new movement.

To be in harmony with one's surroundings is essential. Nature inspires our way of life and adds poetry and softness to the wardrobe.
